ORIGIN

Founded in 2002, as a 100% Egyptian Shareholding Company, EGY Holding became one of the most fast-growing entities led by a group of passionate experts, who are always keen to expand in new markets and territories.

EGY Holding provides an array of services that harmoniously work together towards achieving the top benchmark in various sectors including investment, trading and development, ensuring that all quality products and services are delivered according to the highest standard of excellence.

INTERIOR
& EXTERIOR
DESIGN & FINE FINISHING

We innovate interior and exterior designs providing a state of art spaces and sumptuous environments.

We apply artistic and modern design concepts, using the finest elements in residential, administrative and commercial spaces to boost the quality of life and accommodation in them.

Our portfolio includes but not limited to estates, facilities designing and execution in addition to interior designing and finishing.

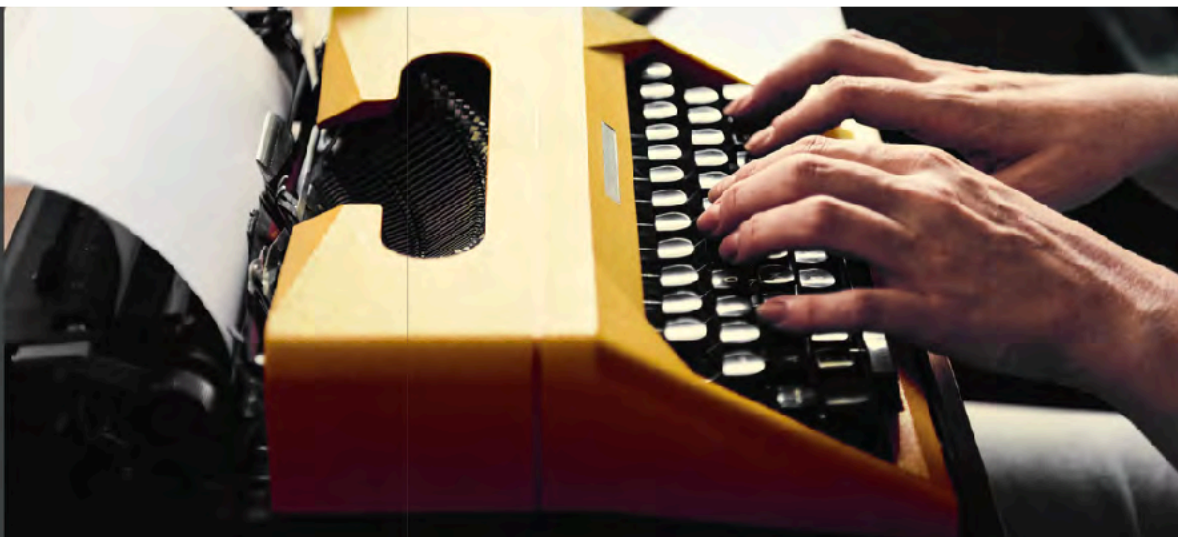

OUR
MISSION

Developing elevated projects with new innovative concepts, and creating exceptional and exquisite communities, that provide inspiring experiences for individuals and corporates' property demands.

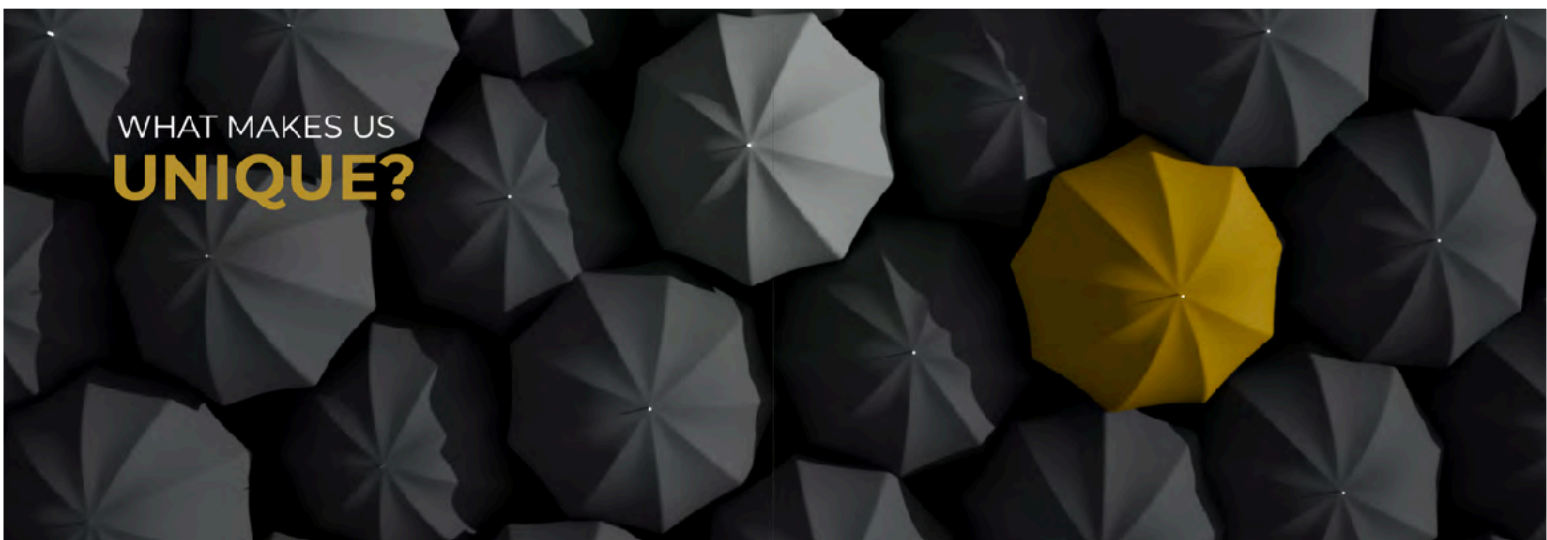

THE
STORY

Being passionate about technology and its smart use for modern society needs along with the fact that modern technology has an immense impact on the environment, EGY Holding started its development journey in the Egyptian real estate market, mixing the green collar approach with construction market methodologies.

WHAT MAKES US
UNIQUE?

OUR
VISION

To become the real estate benchmark, setting the industry's guidelines for the real estate market's shareholders.

EGY
HOLDING
REAL ESTATE DEVELOPMENTS

We provide innovative real estate solutions that serve community needs, based on market research, in-depth market studies and professional approaches.

We follow an environmental-friendly approach when working on any new project, which clearly shows our insistence on using non-harmful building equipment and sustainable building materials, to reduce building emissions and sustain the environmental balance.

We are not just a real estate developer, we develop significant
LANDMARKS

WE'RE
DIFFERENT

Our real estate services are fully integrated and ready to serve different projects' aspects accordingly; architecture, management, construction, and finishing services.

This integrated services system empowers the development of fully accomplished Commercial, Medical, Administrative complexes and urban communities.

We are seeking a top-notch standard of real estate development, focusing on buildings sustainability with a pre-planned environmental approach. When developing, we deeply dive into the efforts to come up with responsible solutions to conserve the environmental landscape and maintain energy efficiency.

EGY Holding aims at implementing new alternative energy systems, incorporating the latest development technologies such as solar panels, eco-friendly insulation, composting toilets, rainwater irrigation systems and much more.

we SEE..

OUR VISION is to be admired as the market leader in innovation and providing cutting-edge ICT solutions focused on business impact and bridging the gap between technology innovator and local market needs.

We UNDERSTAND

ALL YOUR NEEDS

Shabakah has adapted a multi-perspective approach to proactively hunt for the explicit and implicit ever-changing customer needs. This unique technique enables us to design the solution for any specific customer from the tradeoffs of multi-perspective dimensions such as its Strategy, Business Processes, Technology, Ergonomics, Quality Program, Customers, Financial, Organizational Knowledge, Organizational Behavior, and Risk. The solution exceeds the customer expectation because this technique guarantees the delivery of optimal solution by mutually meeting the tradeoff of the constraints imposed by these dimensions.

we CONTROL..

RISKS

Most of projects in region fall beyond achievement of project set goals (Scope, Budget, Security, Quality and Time ...) and lead them towards endless maze. In Shabakah, we developed an innovative risk management system "DARAA, aa" based on flexibility and adaptability, to make sure we avoid, mitigate and adapt risk incidents that commonly happen in any projects and deliver the projects successfully.

we DETERMINE..

OUR MISSION is to provide a complete ICT service that covers the entire value chain by providing individual customer tailored services that both meet customer requirement and provide tangible customer perceived values. To contribute the regional development with our technology solutions and systems integration services that deliver sustainable business benefits to our customers and built around our clients core business needs and objectives.

we EMPOWERS you
